- Onions**
- Beets with greens**
- Oriental Greens**
- Spotted Lettuce**
- Leaf Lettuce**
- Arugala**
- Kale**
- Swiss Chard**

CHICKENS- Yes, they are chickens now, and some roosters too. Trying very hard to get a scraggly crow out and sounding more like an injured cat. It won't be long and we will be waking to the crowing of our beautiful roosters and cackling hens. The sound of roosters crowing first thing in the morning is one of my favorite things.

We have a few birds still available for the freezer. Let me know post haste if you want on the list. Hormone and antibiotic free, free ranged chickens. YUMMERS!!

Give Charlie or I a call for pricing. We will have halves, quarters and ground beef by the pound. DT 550-9332 Charlie 331-7485.

Still looking for these jars

Looking for 1 1/2 pint (3 cup) jars. A unique size! A quart is too much, a pint is too little. This is a picture of the jar (The one in the middle). Notice that the sides go straight up and don't curve out. Look to see if you have any of these jars. And if so, do you want to trade for pints? *We are becoming a large group of preservers!!!*

What a response to the call for canning supplies!!

What a great response to the call for pressure canners. I have received **6 pressure canners**, and have placed three of them. SO, if you are looking to get started in the canning gig let me know. I can hook you up. Thank you to all who, not only read the newsletter, but *ACTED* on what you read to help others.

Still looking for water bathers, tongs, and jar funnels. While you do your spring- cleaning keep an eye for such items you are not using and think about passing them on to those who need, and will use them. If you too, are interested in acquiring said items let me know. Together, we **ARE MAKING IT HAPPEN!!**

Remember, you are welcome to come learn the basics by helping us with our canning! Just let me know you are interested.
